

MISA KOZINOVA

TRAINER & COACH

BACKGROUND

Over the past ten years, Misa's coaching has helped leaders and their teams to both thrive through massive growth as well as getting through the crisis stronger. Throughout her 20 years of management in technology, she has experienced both scenarios first hand. She has honed her leadership and change management skills by building high performing teams with excellent work ethics, collaboration and friendly atmospheres.

She believes in the power of shared vision, authenticity, transparency, and integrity. She is passionate about helping high-achievers to overcome whatever stands in their way to manifest their ambitions with ease and confidence. She trusts her clients would get there anyway, yet, with her no judgement and smart support it's easier and more fun.

Misa coaches in English and Czech both in person and virtually. She also has a conversational knowledge of French and Italian.
